Subject: May SACC Meeting

All,

Below is approved language regarding the SACC's may meeting, should you receive further questions from SACC members and prospective ad hoc reviewers.

Tamue will be serving as the DFO for this meeting with all hands (OSCP) providing back-up.

Thanks.

Steve

Although the EPA has postponed the SACC peer-review virtual meeting for the draft risk evaluation for asbestos, the EPA is still planning to announce the release of the draft risk evaluation for perchloroethylene and the associated SACC's preparatory and peer-review virtual meetings.
